

Syllabes orales

Livret 2 : Fusionner

Objectif :

Fusionner des syllabes orales pour former des mots

Le livret interactif :

Pour ouvrir le livret interactif, il faut ouvrir le dossier puis cliquer sur le lecteur (1. Lecteur)

Ce livret propose 2 séances (lecture et fabrication de rébus),

Le livret d'accompagnement (fiches à imprimer)

En complément de ce livret interactif et pour chacune de ces deux séances, il propose

- une situation de manipulation : un jeu de dominos à découper puis à assembler
- des exercices qui prolongent la séance interactive et laissent une trace du travail réalisé :
 - reconstitution des rébus
 - entraînement systématique à la mémorisation,
 - à la discrimination visuelle,

Denis Caillard
